

# Reconocimiento de Lenguaje de Señas con una Red Neuronal Convolutiva 3D

Loana Beltran Cardozo  
Santiago Florez Carranza

# Tabla de contenido

1

## **Introducción al LSC**

Comunicación, importancia y desafíos.

2

## **Datos**

Preprocesamiento, secuencias y recopilación.

3

## **Convolución 3D**

Introducción, proceso y estructura.

4

## **Entrenamiento y ajuste del modelo**

Validación, rendimiento y precisión

5

## **Limitaciones y conclusiones**

Condiciones y resultados.

# LENGUA DE SEÑAS COLOMBIANA

Una lengua de señas es un sistema **gesto-espacial** el cual utiliza movimientos de manos, expresiones faciales y corporales para transmitir mensajes.

Las personas sordas suelen usar este lenguaje para establecer un canal de comunicación con su entorno social, sea conformado por otras personas sordas o por cualquier persona que conozca la lengua de señas empleada.

# Datos

**Buenas Noches**

**Buenas Tardes**

**Buenos Días**

**Gracias**

Los datos o entradas, corresponden a señas, **no** a palabras del español. Muchas veces sí coinciden, pero otras no; algunas veces una sola seña hace alusión a varias palabras del español.

# Preprocesamiento

# Convolución 3D

Una red neuronal convolucional (Convolutional Neural Network CNN) 3D utiliza un filtro tridimensional para realizar circunvoluciones. El núcleo puede deslizarse en tres direcciones, mientras que en una CNN 2D puede deslizarse en dos dimensiones

# **Entrenamiento y ajuste del modelo**

# Modelo

## **Conv2Dplus1D**

Factorización de las convoluciones en espacial y en temporal

## **Resize\_video**

Reducción de dimensionalidad

## **ResNet18**

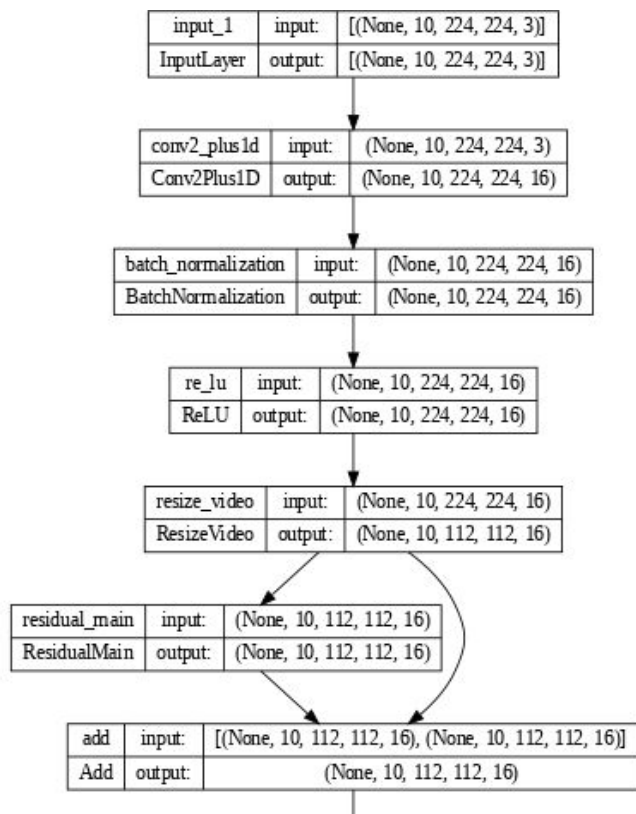

Redes residuales. Capas densas seguidas de capas de normalización

## **Global average pooling3d**

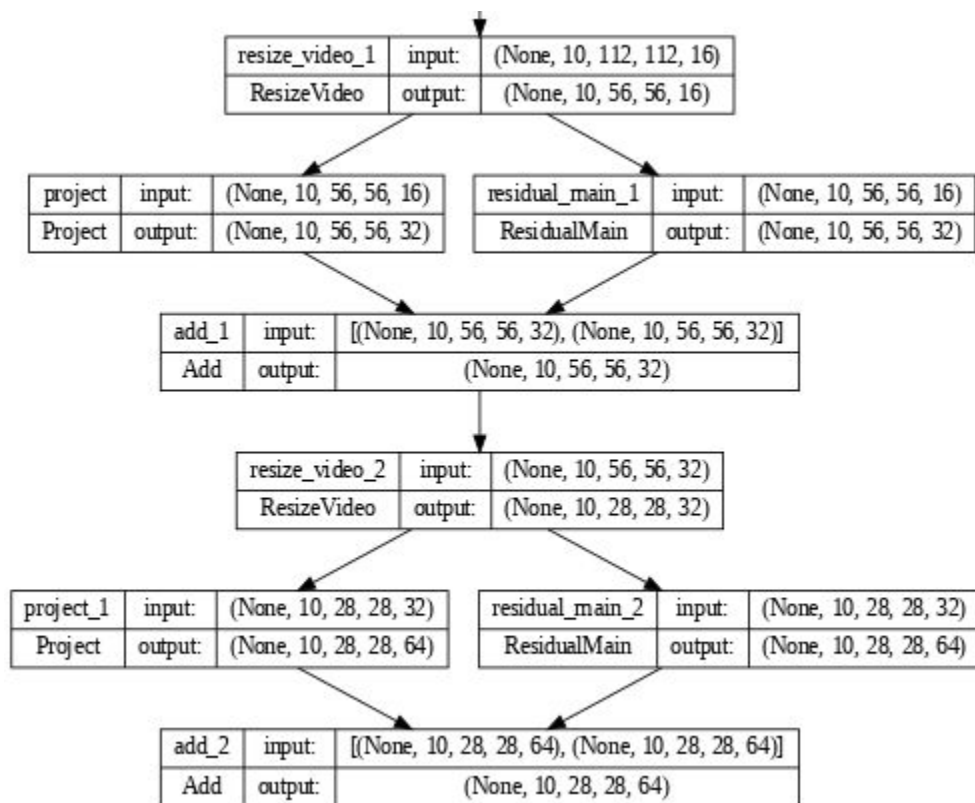

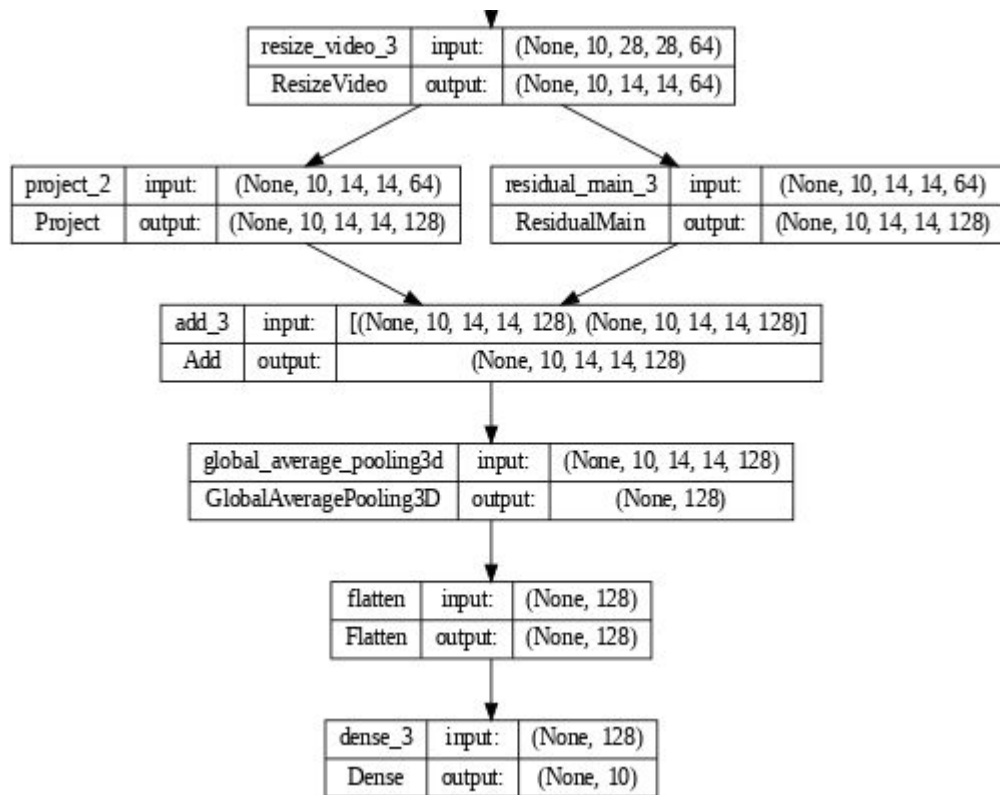

# Modelo

# Modelo

# Modelo

# Función de pérdida

# Precisión

# Matriz de confusión

# Resultados

	Precisión	Recuperación
Buenas Noches	1.0	0.8
Buenas Tardes	1.0	0.8
Buenos Días	0.71	1.0
Gracias	1.0	1.0

# Limitaciones

El lenguaje de señas colombiana (LSC) no se define por un número fijo de señas, ya que puede variar según la región. Al igual que con cualquier idioma, el LSC evoluciona y se adapta constantemente a medida que se desarrolla y se utilizan nuevas formas de comunicación.

El entrenamiento del modelo requiere una gran cantidad de datos de lenguaje de señas. La disponibilidad es limitada y esto puede afectar la precisión y el rendimiento del modelo.

Son modelos computacionalmente intensivos y requieren una potencia de cálculo significativa para su entrenamiento y ejecución.

# Conclusiones

Un modelo bien entrenado puede lograr una precisión aceptable en el reconocimiento de gestos de lenguaje de señas. Sin embargo, se deben realizar pruebas exhaustivas y evaluaciones del rendimiento de este.

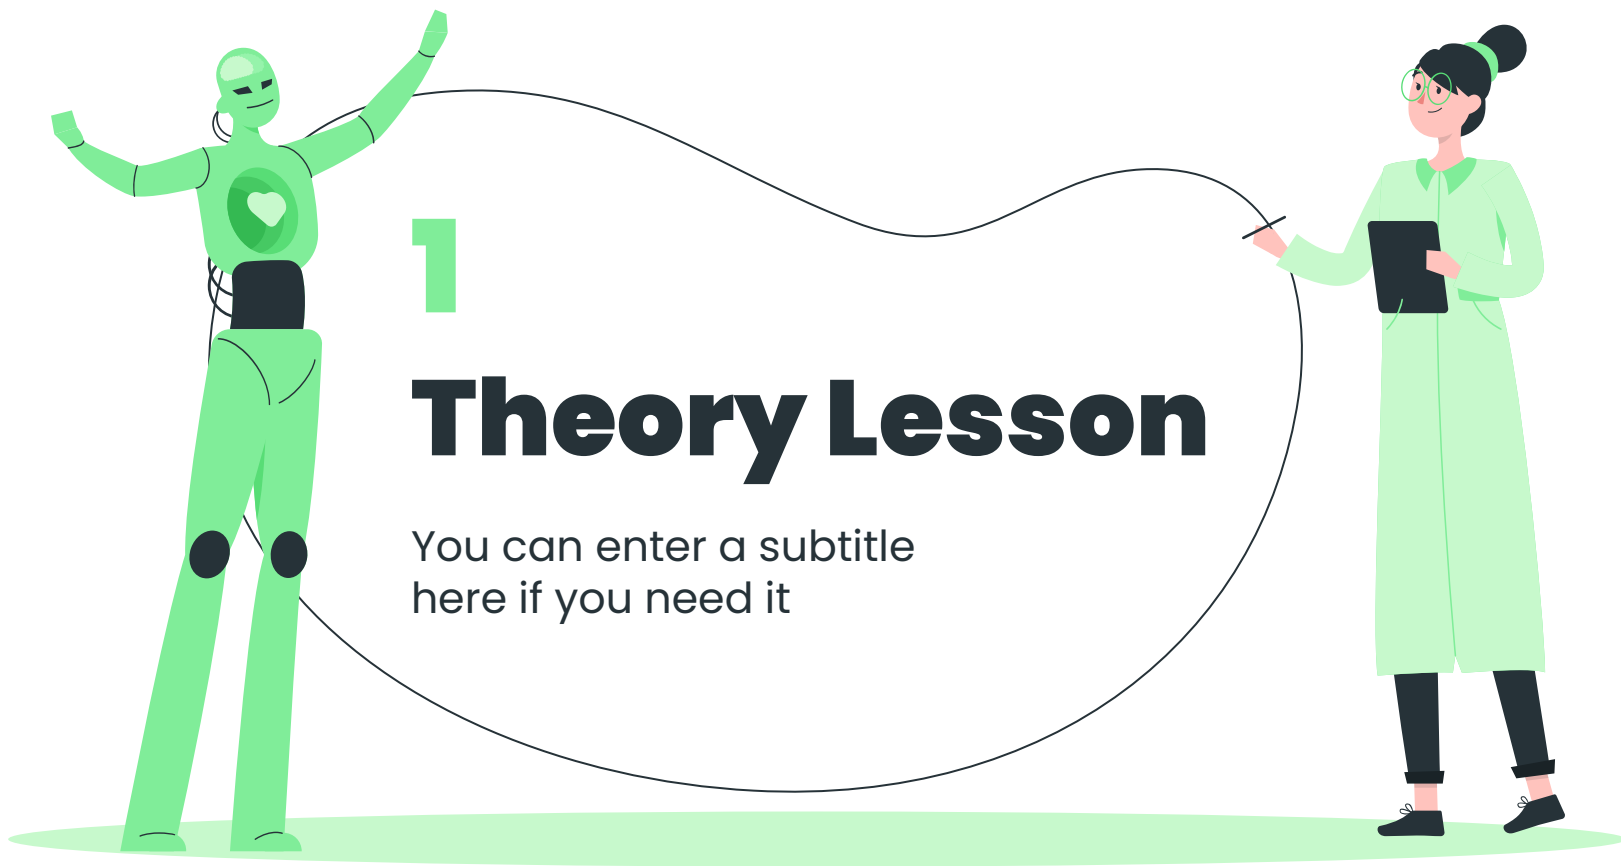

El reconocimiento de lenguaje de señas depende en gran medida de la calidad y la diversidad del conjunto de datos de entrenamiento. La recopilación de datos precisos y representativos es esencial para mejorar el rendimiento del modelo.

Los avances en el modelamiento tienen el potencial de mejorar significativamente la comunicación y accesibilidad para las personas sordas, ya sea en una aplicación de traducción en tiempo real o en el aprendizaje y enseñanza de este lenguaje.

**Gracias**

1

# Theory Lesson

You can enter a subtitle  
here if you need it

# Concepts

## Concept 1

Mercury is the closest planet from the Sun and the smallest one

## Concept 2

Venus has a beautiful name and is the second planet from the Sun

# What Is This Topic About?

1

## **Mercury**

Mercury is the closest planet to the Sun and the smallest one

2

## **Venus**

Venus has a beautiful name and is the second from the Sun

3

## **Mars**

Despite being red, Mars is a cold place. It's full of iron oxide

# Features Of The Topic

## **Mars**

Despite being red, Mars is actually a cold place

## **Mercury**

Mercury is the closest planet and the smallest

## **Jupiter**

Jupiter is a gas giant and the biggest planet

## **Saturn**

Saturn is composed of hydrogen and helium

# Examples

**35%**

Venus has a beautiful name

**65%**

Mars is a very cold place

**85%**

Jupiter is the biggest planet

**50%**

Mercury is the closest planet

# Recommendations

## **Mercury**

Mercury is the closest planet to the Sun

## **Venus**

Venus is the second planet to the Sun

## **Mars**

Despite being red, Mars is a cold place

## **Jupiter**

It's a gas giant and the biggest planet

## **Saturn**

Saturn is the ringed one and a gas giant

## **Neptune**

Neptune is the farthest planet from the Sun

# Practical Exercise

A

## Mercury

Mercury is the closest to the Sun

B

## Jupiter

It's a gas giant and the biggest planet

C

## Venus

Venus is the second planet to the Sun

D

## Saturn

Saturn is the ringed one and a gas giant

# Share Your Practice

Images reveal large amounts of data, so remember: use an image instead of long texts

**A Picture Is Worth A  
Thousands Words**

# **Awesome Words**

# Location Of Robots

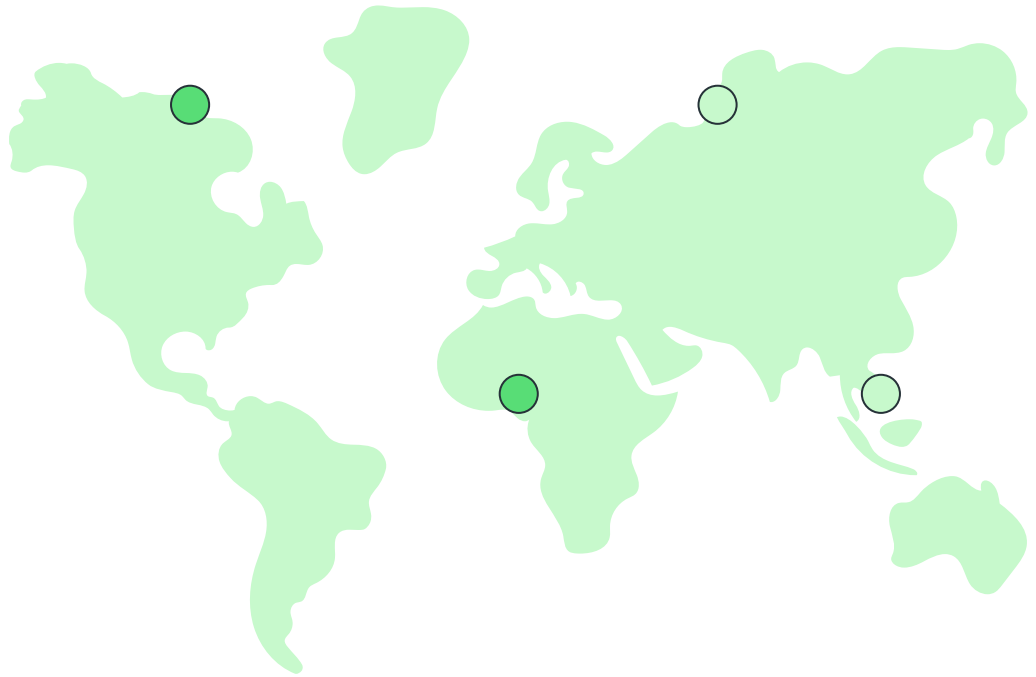

## Mercury

Mercury is the closest planet to the Sun

## Jupiter

It's a gas giant and the biggest planet

# Performance Graphic

To modify this graph, click on it, follow the link, change the data and paste the resulting graph here, replacing this one

## Mercury

Mercury is the closest planet to the Sun

## Jupiter

It's a gas giant and the biggest planet

# Anatomy Of The Error

# Project Timeline

## Day 1

Mercury is the closest planet to the Sun

## Day 2

It's a gas giant and the biggest planet

## Day 3

Saturn is the ringed one and a gas giant

## Day 4

Venus is the second planet to the Sun

# Desktop Software

You can replace the image on the screen with your own work. Just delete this one, add yours and center it properly

# Mobile App And Website

You can replace the image on the screen with your own work. Just delete this one, add yours and center it properly

# Use our editable graphic resources...

You can easily [resize](#) these resources without losing quality. To [change the color](#), just ungroup the resource and click on the object you want to change. Then, click on the paint bucket and select the color you want.

Group the resource again when you're done. You can also look for more [infographics](#) on Slidesgo.

## ...and our sets of editable icons

You can resize these icons, keeping the quality.

You can change the stroke and fill color; just select the icon and click on the paint bucket/pen.

In Google Slides, you can also use Flaticon's extension, allowing you to customize and add even more icons.

## Educational Icons

## Medical Icons

## A 6x6 grid of 36 business-related icons. The icons are arranged in six rows and six columns. The first row includes a clipboard, a gear with a person, a clock, two diamonds, a coffee cup, a globe with a person, a person with a sunburst, and an airplane. The second row features a medal, a balance scale, puzzle pieces, a globe with arrows, a handshake, two people with a speech bubble, a group of people, and a stopwatch. The third row shows three binders, a document with a ribbon, a shopping cart, three people, a target with people, a shield with a dollar sign and signal waves, a bar chart, and a line graph on a stand. The fourth row contains a person with a bar chart, a laptop with a person, a person with a speech bubble, a target with an arrow, a chess knight, three chess pawns, a document with a checkmark, and an eye. The fifth row displays a gear with a percentage, a notebook, a megaphone, a folder with a person, a factory, a clipboard with a checkmark and 'x' marks, a magnifying glass over a person, and a hand holding three coins. The sixth row consists of a person in a location pin, a paperclip, puzzle pieces, a calendar with checkmarks, a laptop with a gear, two interlocking gears, a pie chart, and a trophy. The final row shows a briefcase, a classical building, a rocket, a ship's wheel, a potted plant with a dollar sign, an ID card, a shield with a dollar sign, and a dollar sign with a gear.
